- Every meeting counts - better results with richer communications.
- Globalize your business; web meetings with stakeholders worldwide.
- Feature-packed: screen sharing, co-browsing, and more.
- High quality audio and video.
- One-click conferencing.

### Online Meetings & Video conferencing made easy with 3CX WebMeeting

3CX WebMeeting is an easy-to-use video conferencing solution that transforms the way you communicate and collaborate with customers and business partners. Now you can hold face to face meetings at the click of a button, make high quality presentations or share your screen to really get your point across. 3CX WebMeeting will not only save time and money spent on travelling but will also help you close more business as customer call time is utilised more productively.

### Hassle Free Online Meetings with WebRTC

3CX WebMeeting harnesses Google's revolutionary WebRTC technology. It enables video and voice communications to take place through an open standards internet browser without participants having to download any additional software or install plug-ins. Schedule conferences or elevate ongoing calls on the spot and, with just a few clicks, participants are able to launch the meeting and join effortlessly.

### Feature-Rich Web Conferencing

Today online meetings need more than video - presentations must be high definition and transition as if you were there. 3CX converts powerpoint presentations to HTML5 documents in advance so that resolution and transitions are displayed on the participants screen perfectly. Share your screen to demo software, or point users to a particular website using the co-browsing feature while classroom features such as polling and feedback allow you to keep your audience engaged.

### Online Meetings for all at One Low Price for Your Whole Company

One low, yearly fee for the whole company allows for unlimited access for all of your employees; no more unprofessional account sharing or expensive per month, per user subscriptions. Meetings can be launched by anyone via their personal online meeting account from the web, within 3CXPhone or Outlook. Available Hosted (Integrated with 3CX or Standalone) or on-premise, just choose the number of participants for your company account, up to 10, 25, 50 or 100, and you're ready to go.

### A Web Conferencing Solution to Fit Your Needs

With three deployment options available, rest assured 3CX WebMeeting will cater to all of your company's needs. Each version was built with the user in mind and all options offer excellent value for money and transparent pricing. With our hosted integrated version there's no need to purchase additional bandwidth while the on-premise standalone offers secure communication within your network and the hosted standalone option offers the same reliable, feature-rich web conferencing.

### Introducing 3CX WebMeeting Server

3CX WebMeeting Server is our on-premise deployment option of WebMeeting and combines all of the same incredible features while being hosted through your own server. The perfect solution for organizations wishing to retain FULL CONTROL of their data, 3CX WebMeeting gives you complete confidence in the security of your communications.
